

1 **Declaration of Arcelia Belen Herrera**

2 I, Arcelia Belen Herrera, hereby declare:

3 1. I make this declaration based on my own personal knowledge and if called to
4 testify I could and would do so competently as follows:

5 2. I have just finished the tenth grade at Locke High School in Los Angeles, and I
6 will return to Locke High School in the fall to begin the eleventh grade. I also attended ninth
7 grade at Locke High School.

8 3. I have had classes where there was no teacher. In the first semester of ninth grade,
9 in the 1999-2000 school year, I did not have a teacher in my algebra class for over three months.
10 Sometimes there was not even a substitute. A security guard would just open the classroom so
11 we could go in, tell us to wait there, and then leave. A lot of students would ditch class. The
12 security guards did not do anything about it. The substitutes, when they did appear, did not teach
13 anything at all. Not having teachers made things hard for me. I really did not learn anything. At
14 the end of the semester, all of the students received a "C" grade for the class. I was not happy
15 about that, because I knew I could have done better than that. The fact that I did not learn
16 anything also affected my future math classes. I took geometry in the tenth grade, and that class
17 was really hard for me because I did not have a good background in algebra. Also in my ninth
18 grade English class, during the 1999-2000 school year, we had no permanent teacher for two or
19 three months during the second semester. We just had substitutes. I feel that I really did not
20 have a chance to learn anything that semester in English, because I did not have a teacher for
21 such a long time.

22 4. In some of my classes, there are not enough books. In my ninth grade honors
23 English class, during the 1999-2000 school year, I never had a book in my class. The teacher
24 wrote notes on the board to teach us from. We had to copy everything from the board. For our
25 homework, we copied questions from the board to answer at home. Not having a book in the
26 class really affected my education. I did not get to read very much at all. My teacher had no time
27 to really explain anything, because she was always busy writing the homework and notes up on
28 the board. We had to spend our class time copying from the board, so the students did not have

1 the chance to discuss the stories that we read. In my ninth grade French class, during the 1999-
2 2000 school year, we did not have books either. We had to try to study from photocopies.
3 Sometimes the copies didn't come out right, and you couldn't read them. Then, the teacher had to
4 re-write everything up on the board. In my tenth grade history class, we each had a book, but
5 only to use in class. We couldn't take them home to use when we did our homework, because the
6 teacher only had enough for one class, and we had to leave them in the classroom for the next
7 period to use.

8 5. Some of my classes are overcrowded. My ninth grade French class during the
9 1999-2000 school year had about sixty-five students for about the first month of the school year.
10 We did not have enough seats in the class for all of those students, so we had to share chairs and
11 some of us had to sit on the ground. The administration would not do anything about the class
12 size. So, after about two months, the teacher started to kick students out to make the class
13 smaller. After about three months, the class had about forty-five students. I would have liked to
14 have learned French better, but it was really hard to learn in that class, because it was so crowded
15 and noisy.

16 6. Sometimes we do not have all the equipment we need to learn. I took art during
17 the tenth grade, in the 2000-2001 school year. By the second semester of the tenth grade, we had
18 run out of materials. There was not enough paint and paper and brushes. The teacher told us that
19 she bought materials for us with her own money.

20 7. Some of the classrooms at my school are in bad condition. My tenth grade art
21 class, during second semester of the 2000-2001 school year, was in a classroom that was very
22 unsanitary. There were rats in the building, and there was rat poop all over the classroom. The
23 air conditioner did not work, and in the summer it got really hot, and in the winter it was freezing
24 cold. Also, the chairs were in bad condition, and a lot of them were broken.
